## Lincoln MoneyGuard® Reserve Single Premium

There are two types of inflation protection available, simple or compound.

	CCBR	EOBR
Simple	3%	3%
Compound	2%	5%

You must have the same type of inflation protection under both coverages, i.e., both simple or both compound. Unless rejected, the policy will default to compound inflation. Inflation protection on CCBR is subject to state availability. The charge for inflation protection is deducted monthly from the policy value.

### Inflation protection

### Return of Premium Rider (ROPR)

The amount of premium that is returned upon full surrender of the policy will be the greater of the cash surrender value or 100% of the initial premium paid less any loans, loan interest, or withdrawals taken from the policy or long-term care benefits paid. The policy terminates when this rider is exercised. The charge for the ROPR is deducted from the policy value.

### Residual death benefit

If your entire specified amount of death benefit has been used to pay to long-term care, Lincoln MoneyGuard Reserve will pay your beneficiary a residual death benefit. At the time you purchase the policy, the benefit is equal to 10% of the initial death benefit.
